July Update

Luscious Waterwise Landscapes

It is officially Summer, and the 4th of July is close at hand! Please be aware we will be CLOSED on Sunday, July 4th and Monday, July 5th in observance of the Independence Day holiday.

In other news, California is facing intensifying drought conditions, and many customers and clients are looking to take advantage of the [Santa Clara Valley Rebate Program](#), which entitles home and landscape owners to cash back for converting to a waterwise landscape. Beginning July 1st, rebates increase, so now is the perfect time to

search out the ideal plant candidates for a drought tolerant garden. Check out our Nursery News section for a variety of lush and beautiful water-wise plants beyond succulents and cacti; and read more about protecting your trees from drought in Garden & Landscaping.

As always, thank you for your business and we wish you a happy and celebratory 4th of July and beyond! Stay safe out there -

With gratitude -

Thank you,

Jane

Our City Forest Waterwise Tree Tips

IT'S TIME TO GET WISE ABOUT TREES AND THE DROUGHT

Trees need such little water to grow, yet give back so much more, improving our quality of life. We can only have a healthy urban ecosystem to protect our land, air, water, wildlife and people from the impacts of a drought if we continue planting trees to replenish our urban forest.

Tips to save water for your trees:

USE LESS

- Take shorter showers. Every minute will save at least 2 gallons.
- Flush your toilet 5 few times weekly - that's all a new tree needs!
- Place a regular brick in the tank of each toilet to save water
- Keep your lawn grass 2 inches higher and it will need less water
- Adjust your sprinkler timers often. 50% of the water consumed by residents is for watering lawns and a lot of that is wasted.
- Replace your lawn with native and drought-resistant shrubs or plants.

CAPTURE MORE

- Use buckets to capture rinse water or unused clear water in your kitchen or bathroom sinks, and your bathtub or shower.
- Use buckets to capture water as you wait for shower water to get hot
- Set up a rain barrel to catch rain

TELL US HOW YOU ADOPTED A TREE AND STILL REDUCED YOUR WATER CONSUMPTION! outreach@ourcityforest.org

Our neighbors at Our City Forest have released this extremely helpful set of tips for caring for your trees during drought season. Visit their website to learn more about the awesome work they are doing for the San Jose community and how you can help!
