Free Native Gardens Tour
~~~~~

Come out and tour native gardens in Santa Clara Valley & Peninsula. This community-based tour is free of charge to the public. Each tour features up to 60 gardens, most of them private home gardens, which are open on tour day in a do-it-yourself, open house format.

The California Native Plant Society (Santa Clara Valley Chapter)  
in association with  
UCCE Master Gardeners of Santa Clara County  
presents the

*15<sup>th</sup> Annual*  
**Going Native  
Garden Tour**

**Saturday, April 22, 2017, 10am-4pm:**

SOUTHERN GARDENS: Cupertino, Santa Clara, Campbell, San Jose and south

**Sunday, April 23, 2017, 10am-4pm:**

NORTHERN GARDENS: Sunnyvale, Mountain View, Palo Alto, Los Altos, and San Mateo County

More info at: <http://gngt.org/GNGT/HomeRO.php>

**Featured Plants**

**Cordyline australis 'Pink Passion'** - *Pink Passion*

*Dracaena Palm*: Incredible, bold neon pink leaf margins and gray-purple centers make this a show-stopping specimen. Dramatic year-round foliage color makes this ideal for containers. Pairs sensationally with chartreuse or silver-hued heucheras. (description from Monrovia)

**Ozothamnus diosmifolius 'Rose'** - *Rose*

*Pink Rice Flower*: A small erect, fountain-like shrub to 3 feet tall with dark pink buds that open as rose pink flowers that fade to white as summer progresses. Adaptable to most soil types, it requires full sun with occasional to regular irrigation

**Clematis montana rubens 'Tetrarose'**- *Pink*

*Anemone Clematis*: Wonderful spring & summer color from sweetly fragrant, dark pink, anemone-like flowers. Great for arbors. An intriguing ground cover or charming rambler, when allowed to sprawl or climb through informal shrub borders. New growth has purplish coloring, maturing to bronze-green. (description from Monrovia)

**Leucospermum cordifolium 'Flame Giant' - Giant**

*Orange Nodding Pincushion*: A rounded spreading evergreen shrub whose stems curve out and then up reaching to 6 feet tall by 6 feet wide with a strong orange-colored pincushion flower (technically the styles of many small flowers in a tight cluster) in late winter to early spring. This cultivar is noted as being later blooming, peaking in February and March and having some of the largest of the pincushion flowers with flower heads reaching 4 to 6 inches wide. Plant in well-drained, amended (acidic) soil, along with full sun to ensure a bountiful bloom. It is drought tolerant and cold hardy to about 25 degrees F. Though relatively short lived in the garden, on average lasting about eight years, these plants can be a major and dramatic focal point in the garden and the flowers are great in arrangements. (description from San Marcos Growers)

More excellent colorful choices now in the nursery:

**Sophora secundiflora - Texas Mountain Laurel:**

Showy multi-stemmed shrub or small tree. Fragrant violet-blue flowers in terminal clusters for a wonderful display. Slow growing and easily trained as a nice espalier or patio tree. Evergreen. (description from Monrovia)

**Hesperaloe parviflora - Red Yucca** : While this may be the traditional color of this free blooming Yucca relative there are also yellow, pink and dark red selections.

**Opuntia 'Santa Rita' - Purple Prickly Pear** : This cacti has pads that in the winter turn to a rich purple color and return to a soft blue gray with warmer weather. Large yellow flowers rest on the outer edges of spine covered pads in late spring to early summer.

Along with what seems like a never ending variety of **Agave, Aloe, Cacti** and **Succulents** there is never a shortage of material to make every garden unique. We stock and order many of these plants at the nursery, as well as many informative publications.

### **You Design It, We Deliver It**

~~~~~

With our extensive inventory and trusted nursery partners, CWN is your one source for plants and planting supplies. The nursery is brimming with a wide variety of colors, textures and sizes. We have in stock a complete mix to accommodate larger quantities of our best sellers, making it even easier to complete your orders more quickly.

Here is a brief summary of what we can do for you:

- Assemble orders for will call or delivery, usually the same day
- Always use the best and most consistent materials available
- Contact you immediately if there is a quality or availability issue
- Order out of stock or specialty materials, to arrive as quickly as possible, using all available resources
- Guarantee that CWN material will meet or exceed your satisfaction
