Greenfields Turf

~~~~~

We are excited to offer more sod choices with the addition of Greenfields Turf.

Since 1984 Greenfields Turf Inc., a specialized sod grower in the Salinas Valley, has created its name on quality sod and personalized service. Now providing a new generation of lawns to meet the demand for beauty and durability, Greenfields Turf Inc. fumigates and laser levels their fields to ensure sod that is essentially free of weeds, insects, and diseases.

Check out Greenfields turf selections [here](#).

### **Landscape & Nursery Tradeshow**

~~~~~

A one day horticultural trade show bringing the best the industry has to offer to retailers, landscapers, designers and all others who work in the original "green" industry.

 1346 Saratoga Drive · San Mateo, CA 94403
 530.458.3190

Parking Fee: \$12.00 - Cash Only Website: <http://norcaltradeshow.org/>

Featured Plants

Cordyline australis 'Pink Passion' - *Pink Passion*

Dracaena Palm: Incredible, bold neon pink leaf margins and gray-purple centers make this a show-stopping specimen. Dramatic year-round foliage color makes this ideal for containers. Pairs sensationally with chartreuse or silver-hued heucheras. (description from Monrovia)

Hardenbergia violacea 'White Out' - *White Vine*

Lilac: This is the white flowering variety of the well-known and very popular Hardenbergia species of climbers and groundcovers. 'White Out' forms a bush or

ground cover and spreads to around 8 feet wide. It can be trained to climb or may sprawl along the ground. Growth habit is variable. It will withstand moderate frost and prefers full sun or part shade. Most soil types are suitable and well-drained soil is preferred.

Camellia sasanqua 'Yuletide': Single, brilliant red blooms centered with bright yellow stamens make an elegant statement in the winter garden. Excellent foundation shrub or espalier specimen. Glossy, dark green foliage creates a handsome natural hedge. (description from Monrovia)

Leucospermum cordifolium 'Flame Giant' - *Giant Orange Nodding Pincushion*: A rounded spreading evergreen shrub whose stems curve out and then up reaching to 6 feet tall by 6 feet wide with a strong orange-colored pincushion flower (technically the styles of many small flowers in a tight cluster) in late winter to early spring. This cultivar is noted as being later blooming, peaking in February and March and having some of the largest of the pincushion flowers with flower heads reaching 4 to 6 inches wide. Plant in well-drained, amended (acidic) soil, along with full sun to ensure a bountiful bloom. It is drought tolerant and cold hardy to about 25 degrees F. Though relatively short lived in the garden, on average lasting about eight years, these plants can be a major and dramatic focal point in the garden and the flowers are great in arrangements. (description from San Marcos Growers)

More excellent colorful choices now in the nursery:

Acacia covenyi - *Blue Bush*: Native to Australia this though, and very blue, wispy tree is perfectly adapted to the S.F. Bay Area.

Hesperaloe parviflora - *Red Yucca* : While this may be the traditional color of this free blooming Yucca relative there are also yellow, pink and dark red selections.

Opuntia 'Santa Rita' - *Purple Prickly Pear* : This cacti has pads that in the winter turn to a rich purple color and return to a soft blue gray with warmer weather. Large yellow flowers rest on the outer edges of spine covered pads in late spring to early summer.

Along with what seems like a never ending variety of **Agave, Aloe, Cacti** and **Succulents** there is never a shortage of material to make every garden unique. We stock many of these plants at the nursery as well as many informative publications.

You Design It, We Deliver It

With our extensive inventory and trusted nursery partners, CWN is your one source for plants and planting supplies. The nursery is brimming with a wide variety of colors, textures and sizes. We have in stock a complete mix to accommodate larger quantities of our best sellers, making it even easier to complete your orders more quickly.

Here is a brief summary of what we can do for you:

- Assemble orders for will call or delivery, usually the same day
- Always use the best and most consistent materials available
- Contact you immediately if there is a quality or availability issue
- Order out of stock or specialty materials, to arrive as quickly as possible, using all available resources
- Guarantee that CWN material will meet or exceed your satisfaction
